FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

The act adds language that allows political subdivisions from adopting ordinances prohibiting amateur radio communications equipment from interfering with the reception of broadcast radio or television signals.

This act requires orders and ordinances of political subdivisions to comply with the limited preemption of the Federal Communications Commission Amateur Radio preemption order and other applicable federal regulations. Any order or ordinance relating to amateur radio antennas must be reasonable and minimal in nature.

This act does not prohibit a political subdivision from taking action to protect or preserve a historic, a historical or architectural district that is established by the political subdivision or under state or federal law.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
